The NHS also has a link available to static vaccination clinics which are also offering walk in vaccinations <https://www.nhs.uk/conditions/coronavirus-covid-19/coronavirus-vaccination/find-a-walk-in-coronavirus-covid-19-vaccination-site/>

The vaccines are available to all as a first dose and as a second dose to those who have already received one dose of the same vaccine, providing there is an eight-week gap between doses.

Vaccinations for 12 -15-year-olds

These will continue in schools until mid-November but can also now be pre booked through the National Booking Service either online at: www.nhs.uk/covid-vaccination or by phoning 119. Vaccinations for this cohort are also available at walk-in sites as detailed above.

Booster Vaccinations

The phase three booster programme is available to anyone aged 50 and over. Boosters can only be given six months after the second dose vaccination and so initially, the focus is on those who received their vaccination at the start of the programme.

The phase three booster programme is being delivered through our Primary Care Network and Pharmacy sites and pop-up offer. Residents will be contacted directly by their GP or NHS England to make an appointment when their booster is due. Booster appointments can also be booked through the National Booking Service either online at: www.nhs.uk/covid-vaccination or by phoning 119.
